

## **Town of Cassel – Residential Garbage and Recycling Update**

The Board advertised for and received competitive bids for garbage and recycling service. The winning bid was Harter's Fox Valley Disposal at \$14.50 per month per residence for 2021 service. Under the contract, Harter's will provide each resident with 96 gallon wheeled container for the weekly pickup of residential garbage and a 96 gallon wheeled container for bi-weekly pickup of recycling materials.

The cost of the service will be billed directly to the Town and will be passed on to the residents annually by including the cost on your real estate tax bill as a special assessment.

A follow-up mailing will occur as we get closer to the implementation date, determining collection day etc.

Please note: Do not stop your current garbage pick-up service until March 31, 2021.

**Service is scheduled to be on Wednesdays with the 1<sup>st</sup> pickup to be April 7, 2021. The 1<sup>st</sup> recycling pickup will be April 14<sup>th</sup>. An Informational packet will be attached to carts that are delivered that will have a schedule and contact information for Harter's. There will also be a recycling guide for residents to use.**
